STATINTL  
1.

STATINTL

[redacted] has applied for a job at CIA. He is seeking information as to how long it may take to get the necessary security clearances as he is being offered another position. I will make the necessary check and inform him.

[redacted]

3. Miss Himes, of the office of Senator Duff, called to request that we furnish them with a list of all Pennsylvanians on duty at CIA, together with their job titles, salaries and hometowns. I explained to Miss Himes the security aspects of this problem and read her the appropriate section of the law on this point. She understood the security aspects and we will probable hear nothing further from them.

4. Mr. J. Sourwine, Counsel of the Senate Judiciary Committee, stated that a defeated Congressional Representative was seeking employment in CIA and stated that he has been informed that the provisions of a McCarran Act necessitated a six months' security delay. I told Mr. Sourwine that there was no truth in this allegation, that we normally had a 90 day lag in security clearances, but that this hinged on our own regulations and not on the law.
